

GT-SW

Call Switch Module

The GT-SW call switch module is used for GT Series direct-select entrance stations.

One switch can be programmed to call up to four tenant stations.

Compatible cover panels are available with one, two, three, and four buttons: GF-1P, GF-2P, GF-3P, and GF-4P.

- **Direct-select**
- **Four programmable buttons**
- **Compatible cover panels with one, two, three, and four buttons**
