

## Announcing Introducing RAM Upgrades for the Exacq A-Series and Q-Series

We are thrilled to announce the launch of our new RAM upgrades for the Exacq A-Series and Q-Series. These upgrades are designed to enhance the performance and efficiency of your security systems, ensuring they meet the demands of modern surveillance environments.

### Key features:

- **Enhanced Performance:** Boost your system's performance with our new RAM upgrades, ensuring faster processing and improved system responsiveness.
- **High Compatibility:** Specifically designed for the Exacq A-Series and Q-Series, these upgrades ensure seamless integration and optimal performance.

### Upgrade Options:

- **A-Series 2A and Q-Series:** Upgrade to 8GB of additional RAM, bringing the total to 16GB. This upgrade is perfect for enhancing the performance of these models, providing the extra memory needed for more demanding applications.
- **A-Series FA and A-Series FAR:** Upgrade to 16GB of additional RAM, bringing the total to 32GB. This substantial upgrade ensures these models can handle even the most intensive surveillance tasks with ease.

### Why Choose Our RAM Upgrade:

- **Reliability:** Our RAM modules are rigorously tested to ensure they meet the highest standards of quality and reliability.
- **Support:** Our dedicated support team is always available to assist you with any questions or installation issues.
- **Value:** Competitive pricing ensures you get the best value for your investment, enhancing your system's performance without breaking the bank.

Upgrade your Exacq A-Series and Q-Series security systems with our new RAM modules today. Experience the difference in performance and efficiency with our top-of-the-line solutions. For more information, visit our website or contact our sales team.
